### **RUDD GOVERNMENT DELIVERS OVER \$1.3 MILLION TO BOOST LOCAL INFRASTRUCTURE IN THE CITY OF ONKAPARINGA**

The Rudd Labor Government has today announced the approval of more than \$1.3 million for ready-to-go local infrastructure projects in the City of Onkaparinga, including refurbishing community facilities and installing thirteen footpaths and bus shelters across the local area.

Minister Albanese announced the funding from the \$800 million Community Infrastructure Program to support jobs and boost local economies by building and renewing community infrastructure.

"This program is the single largest investment in local infrastructure in Australia's history."

Federal Member for Kingston, Amanda Rishworth MP, today welcomed the historic local funding announcement enabling City of Onkaparinga Council to receive support from the Federal Government for local infrastructure projects.

The City of Onkaparinga will receive \$1,345,000 for 58 infrastructure projects across the community from Flagstaff Hill to Port Willunga, from Christies Beach to Morphett Vale and from Hackham to Old Reynella - overview of projects are attached

Projects being funded include \$200,000 to refurbish Noarlunga Leisure Centre, \$72,500 to install a new footpath on Warri Parri Drive in Flagstaff Hill and \$65,000 to upgrade Christies Beach Bowling Club.

Ms Rishworth said today's prompt Federal Government funding announcement will play a significant role in stimulating our local economy.

"Today's funding announcement for local projects will play a significant role in stimulating our local economy," Ms Rishworth said.

"I have made many representations in Canberra highlighting the importance of providing much-needed local infrastructure funds for our community."

Mr Albanese said that the Rudd Government was determined to act decisively with local communities to support jobs and improve the quality of local infrastructure.

"Today's federal funding announcement will help get these projects of the ground and out of the 'too-hard' basket."

"More than 3,600 projects have been submitted under the first round of the Community Infrastructure Program and the Rudd Government is getting on with the job of rolling out projects in local communities."

Ms Rishworth encourages the Marion Council to sign their contract as quickly as possible so funds can be released – contracts will be issued shortly.

## **City of Onkaparinga (\$1,345,000)**
